SUMMARY

Senior Software Engineer with 4+ years of experience building scalable, high-performance, AI-Powered web platforms with React, Next.js, TypeSript, and Node.js. Product-minded engineer who understands user needs and business goals, acting as a trusted technical advisor to clients from planning through deployment. Leverage AI-assisted development and LLM-powered workflows to deliver MVPs and business-ready systems up to **10x** faster without compromising code quality. I help small businesses launch complete digital systems — frontend, backend, deployment, and AI automation, end to end.

PROFESSIONAL EXPERIENCE

Senior Software Engineer, *NextBridge Ltd.* Nov 2025 – Present | Lahore, Pakistan

- Designed scalable Node.js and MongoDB structures powering high-traffic, production-grade platforms.
- Built for government-backed clients **ADREC** (Abu Dhabi Real Estate Centre), managing their lease and PMA services end to end from service initiation to checkout.
- Converted a legacy, fully manual property services builder into an intelligent, automated platform using **AI automation**.
- Led the launching of a project with **35%** increase in user adoption and user engagement

Frontend Developer - Remote, *Trustangle.* Nov 2024 – Jun 2025 | Riyad, Saudia Arabia

- Architect scalable frontend solutions using Next.js / Nuxt.js and modern tooling.
- Built a AI-Powered Headless CMS Platform a product for a saudi client that manages the entire content, SEO, blogs, audit logs with super-admin controls and theming of any tourism website from a single platform.
- Implemented role-based user permissions, two-factor (2FA) authentication, and activity logs to secure and audit every operation across the dashboard.

Software Engineer, *Logical Creations* Sep 2024 – Nov 2025 | Lahore, Pakistan

- Developed two production Saudi tourism websites end to end, translating pixel-perfect Figma designs into fast, responsive, multilingual (RTL/LTR) web experiences.
- Leading a development team of **6** engineers to deliver scalable web applications using Next.js,TypeScript, and modern frontend architecture.
- Managing delivery of SaaS platforms, marketplaces, dashboards, and custom software solutions.
- Lead the Development with cross-functional team for simple, scalable, and powerful architecture for building production ready React applications, handled RTL and LTR layouts for multilingual applications.

Associate Software Engineer, *Folium AI.* Aug 2023 – Sep 2024 | Lahore, Pakistan

- Developed responsive web applications using React and Next.js and Implemented pixel-perfect designs from Figma mockups.
- Led a launch that boosted user adoption and engagement by **35%** by integrating Onfido SDK (digital verification) and PubNub (real-time communication).
- Optimized application performance and user experience.
- Developed **38+** Unit, Integration, and Cypress tests with Jest and Vitest for test-driven web development.

IT Engineer Intern, *NAVTTC* Jun 2022 – Jul 2023 | Islamabad, Pakistan

- Served as an IT branch resource under a federal government internship program (**BPS-16**) at the Ministry of Federal Education & Professional Training.
- Worked alongside the in-house IT team to implement and verify amendments to the official NAVTTC website, ensuring responsive and cross-browser consistent delivery.

TECHNICAL SKILLS

Languages:
- JavaScript, TypeScript, Python, HTML, CSS

Backend & Databases:
- Node.js, Express, NestJS, PostgreSQL, MongoDB, Firebase, Supabase, Strapi

Tools & Integrations:
- Git, Figma, Cursor, Claude, OpenAI, REST, GraphQL, WebSockets, WebRTC, NextAuth, Clerk, Stripe & Wise SDKs, Auth0, Mapbox API, Onfido SDK, PubNub

Frontend:
- React, Next.js, Vue, Nuxt, Redux Toolkit (RTK Query), Context API, TanStack Query, React Hook Form, Formik, Zod, Tailwind CSS, shadcn/ui, Material UI, Framer Motion

Cloud & DevOps:
- AWS (S3, EC2, SES), Azure, Docker, Nginx, GitHub Actions, GitLab, CI/CD, Cloudinary

Testing & Quality:
- Jest, Vitest, Cypress, TDD, Unit & Integration Testing

EDUCATION

FAST NUCES, Lahore Sep 2017 – Dec 2021 | Lahore, Pakistan
Bachelor's in Electrical Engineering

Government College University Lahore Sep 2015 – Sep 2017 | Lahore, Pakistan
Intermediate (Pre-Engineering)

PROJECTS

Tribaja, *a talent marketplace & community for under supported tech talent website.*
- Supported the dev team in making a graceful professional website by integrating Talent Management Portal dashboard and whole platform responsiveness with Google and Linkedin Authentication as a bonus.Implemented and maintained state management with Redux Toolkit ensuring efficient data flow and seamless performance. -*React, TypeScript, Sass, Redux-Saga* ***Claude opus 4.5, Claude sonnet 4.6, Open AI***

Saudia Government Project, *(PIF) Company that aims to contribute to the development of the tourism sector*
- Revamped & Developed Saudi Toursim Website and Admin Panel which includes 30+ landing pages figma wireframes into a full responsiveness website having enhanced features like mutli-langauges toggle fuctionalities for English and Arabic Content , integrated third-party-platform apis Mapbox for dynamic location coordinates and X/Twitter-api for handling social media platofrm and blogs managened attached with Admin Panel -*Next.js, TypeScript, Tailwind Css, Chakra UI, Framer Motion,* ***Claude opus 5, Claude sonnet 4.6***

AI-Powered Headless CMS Platform, *a SaaS Content Management Dashboard Product*
- Built an AI-powered headless CMS for a Saudi client, now running 4 live websites. A Python crawler turns any site's HTML sections into JSON content APIs, so pages and sections can be created and edited from one dashboard. Features RBAC with 2FA, drag-and-drop section ordering, SEO and blog management, lead management, user management, and audit logs with super-admin controls. -*React + Vite, TypeScript, Python, Tailwind, shadcn/ui, Kokonut UI, React Hook Form, Zod, TanStack Query & Table, React Quill, Framer Motion,* ***Claude Sonnet 5.5***

Wateen Website, *a website for AI-Powered Online Marketplace and Inventory Management Platform*
- Led a cross-functional team to deliver a bilingual AI-Powered restaurant operations platform for F&B businesses in Saudia Arabia. -*Next.js, React, TypeScript, Redux Toolkit, Material UI, Formik,* ***GLM 5.3 Flash, GPT-5.6***

Jigsaw Digital Solutions, *Your All-in-One Cloud-Based Solution for Ordering, Payment, and Delivery!*
- Defined and implemented the technical architecture for a multilingual Next.js platform (App Router, SSR/ISR) with rigorous SEO (structured data, canonical/hreflang, sitemaps), scalable Admin Panel, and secure, versioned APIs; enabled modular content workflows and social integrations. -*Next.js,* ***Grok 4.6, GLM 5.3 Flash***

DARI (Abu Dhabi's official Digital Real-Estate Ecosystem platform),
Your One-Stop Solution for All Real Estate Needs in Abu Dhabi
- Developed and designed a robust, production-ready marketplace and management website to manage the ongoing real estate services, converted a legacy, fully manual property services builder into an intelligent, automated platform using AI automation. -*React, React-hook-form, redux, redux-thunk, Mui-core, sanitize.css, google-map-react,* ***Claude opus 5.5, Claude sonnet 5***
